

Project Objectives

By the end of this project:

- We will be able to understand the problem to classify if it is a regression or a classification kind of problem.
- We will be able to know how to pre-process/clean the data using different data pre-processing techniques.
- We will be able to analyse or get insights into data through visualization.
- Applying different algorithms according to the dataset and based on visualization.
- We will be able to know how to build a web application using the Flask framework.
